# MELODIE BLAIZE // SNIPTease

Melodie Blaize is a self taught, traveling fashion artist that calls Fort Lauderdale, Florida home. She has made all across the country and overseas for events/festivals to snip clothes and also create art installations.

She started this business during her last semester at University of Florida in 2009. Her degree in Environmental Science inspired her career choice as her collection is created from 100% recycled materials.

She had a closet full of ill fitting band tees.. some riddled with stains. SnipTease was a quick and fun solutions to these problems and a better alternative then just tossing the shirts out. The world has enough landfill problems.
